# MARINE COLLAGEN PREMIUM+

# MARINE COLLAGEN PREMIUM+

---

Find your inner glow with Marine Collagen Premium+, a Norwegian, high-end, premium quality collagen product that is 100% natural and originates from traceable and sustainable fishing in pure Arctic waters. This unique formula is rich in essential amino acids, minerals and nutrients such as Vitamin C, L-arginine, Glycine and Methyl-sulfonyl-methane. Marine Collagen Premium+ has a subtle flavour of lemon and tastes great.

---

Marine Collagen Premium+ is a Norwegian product manufactured in Norway. The collagen peptides in this product come from MSC-certified cod skin from traceable vessels, which makes it more sustainable; adding to the ecological and sustainable preferences for self-conscious consumers. Marine collagen is absorbed 1,5 times more effectively into the body and has superior bioavailability over other sources of collagen such as bovine, porcine or fowl. Marine Collagen Premium+ also contains higher levels of Vitamin C to optimize the body's own production of collagen.

## **FOR WHOM?**

One of the most abundant proteins that our bodies produce is collagen,

but from our 20's, collagen levels start decreasing. Aging becomes visible in the skin as it loses elasticity and firmness over time. Those who want to keep their skin looking youthful and feeling healthy – as well as benefiting the bones, muscles, tendons and ligaments – will enjoy the effects of using Marine Collagen Premium+. A daily dose of 6 grams of Marine Collagen Premium+ should be sufficient for this purpose.

## **HYDROLYZED COLLAGEN**

Hydrolyzed collagen blocks are more easily absorbed in the intestine. The unique Marine Collagen Premium+ hydrolyzed collagen "subunits" represent essential ingredients for the cells' own collagen production.

### **Skin, hair and nails**

Collagen can improve skin elasticity, make your nails stronger and improve hair growth.

### **Bones, muscles, tendons and ligaments**

Collagen can contribute to slowing the aging process inside the body, making the bones, muscles, tendons and ligaments stronger and more dense.

### **Immune system**

Collagen can boost your immune system with our unique blend of antioxidant rich vitamins and minerals.

### **Easily dissolvable**

Marine Collagen Premium+ dissolves easily in a smoothie, shake, coffee, juice or water.

### **No fishy aftertaste**

With a subtle lemon flavor this product tastes great, and leaves no fishy aftertaste.

---

## **Vitamin C**

Vitamin C contributes to the reduction of tiredness and fatigue, normal physiological functions, energy-yielding metabolism, and a normal immune system.

## **L-arginine**

L-arginine is well known for its anti-aging effects and can help reduce the appearance of fine lines and wrinkles.

## **OptiMSM**

OptiMSM helps reduce signs of aging, improves skin firmness, elasticity and hydration, it is also important for hair and nails.

## **Glycine**

Glycine is the main amino acid in collagen. It can help your body

produce antioxidants, improve your sleep quality, protect your heart, and protect against muscle loss.

## **Zinc**

Zinc is a mineral that can boost the immune system, manage blood sugar, clear up acne and promote a healthy heart and blood vessels.

## **Copper**

Copper enables the body to form red blood cells. It helps maintain healthy bones, blood vessels, nerves and immune function.

## **Manganese**

Manganese supports the body's normal bone mass, tissue and normal energy-yielding metabolism.

# DID YOU KNOW?

It takes the body 4-6 months to replenish unhealthy tissue with new tissue. You should see and feel the difference after taking Marine Collagen Premium+ and your skin will glow from within.

---

## MSC Certification

MSC-certified fisheries ensure that fish are harvested to a level that allows the fish population and ecosystems they depend on to remain healthy and productive in the future by receiving and processing them to the highest sustainability standards.
