

PURE ARCTIC OIL FOR KIDS

It's in our nature

PURE ARCTIC OIL FOR KIDS

A full spectrum omega-3 supplement, rich in the essential fatty acids DHA and EPA (880 mg per 5 mL) and Vitamin D. Sourced from traceable, MSC-certified Norwegian cod to ensure a safe, sustainable, and exceptionally fresh and pure product. Pure Arctic Oil for Kids has a natural lemon flavour.

Developed for children

Pure Arctic Oil for Kids is developed specifically to meet the recommended nutritional guidelines for children. When kids grow, it is especially important to choose high-quality omega-3 oil with a low content of unwanted substances such as heavy metals and environmental toxins, until the child's liver function is fully developed.

Essential nutrients

Obtaining the recommended amount of essential nutrients is important for growing children. Pure Arctic Oil for Kids helps to maintain an optimal ratio between the amount of omega-6 and omega-3 in the body. It is 100% natural and has a fresh lemon flavour.

What is it good for?

The formulation contains essential omega-3 fatty acids, rich in EPA and DHA to support brain, vision, immune system and muscle functions.

Ingredients

Fish oil (98.3%), Natural lemon flavour, Antioxidant: Natural tocopherols, Natural rosemary extract, Vitamin D3.

Recommended daily dosage

0,15 mL per 1 kg of body weight. 1 mL contains a total of 180 mg DHA and EPA.

EU Health Claims

Heart

250 mg of EPA and DHA contributes to normal heart function.

Vision

250 mg of DHA helps to maintain a normal vision.

Blood

A daily intake of 2-5 grams of DHA and EPA helps to maintain normal blood triglyceride level and normal blood pressure.

Vitamin D3

Vitamin D3 contributes to normal muscle and immune system function, normal absorption of calcium and phosphorus, normal blood calcium levels, and maintenance of normal bones and teeth.

Pure Arctic Oil For Kids contains 16 µg Vitamin D per 5ml, which goes in line with the Norwegian Directorate of Health's recommendations.

Brain

250 mg of DHA contributes to brain health by maintaining normal brain function.

Immune System

EPA and DHA contribute to the normal function of the immune system.

Muscle Function

EPA and DHA contribute to the normal muscle function.

MSC Certification

MSC-certified fisheries ensure that fish are harvested to a level that allows the fish populations and ecosystems they depend on to remain healthy and productive in the future, by receiving and processing them to the highest sustainability standards.

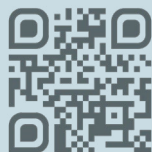

DID YOU KNOW?

Omega-3 fatty acids are highly sensitive to oxidation, and oxidised omega-3 is not as beneficial for one's health. Oxidation levels can be measured with a TOTOX value. The maximum TOTOX value set by the Global Organization for omega-3 is 26. Our premium Pure Arctic Oil for Kids has a TOTOX value between 4 and 6 ensuring the highest quality for our customers.
